-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 January 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters "C" and "C1" have both been used to designate a wireless headphone in Fig. 3. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84©) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: "hand-free" should be changed to "hands-free" in the title, in the description of the related art on page 1, in the claim on page 4 and in the abstract on page 5.

Appropriate correction is required.

Claim Objections

3. Claim 1 is objected to because of the following informalities: Claim 1 should be numbered and expressed in one sentence. The quotation marks on the first line of the claim should be removed. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 1, applicant recites the limitation "the cell phone" on line 2, however, there is insufficient antecedent basis for this limitation in the claim.

On line 8, the recitation of the limitation "wireless headset" lacks clear antecedent basis.

Applicant recites the limitation "the low power radio frequency send/receive module " on line 9, however there is insufficient antecedent basis for this limitation in the claim.

The phrase "it is " on line 7 renders the claim indefinite because it is unclear whether the limitation following the phrase is part of the claimed invention.

On line 3, the phrase "of the signal" renders the claim indefinite because the claim includes elements not actually disclosed thereby rendering the scope of the claim unascertainable.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

7. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by **Baranowski et al., U.S. Patent Number 6,473,630, (hereafter Baranowski).**

Regarding claim 1 Baranowski discloses a battery packet which is placed in the cell phone and consists of a battery (see col. 3, lines 63-65 and Fig. 2) and a radio frequency send/receive module (see col. 2, lines 50-63), whose power is supplied by the battery (see col. 3 lines 63-65 and Fig. 2), a wireless hands-free headset which consists of a battery (see col. 2, lines 3-4) and a radio frequency send/receive module whose power is supplied by a battery (see col. 3, lines 3-16 and Fig. 2), the wireless headset transmits a signal into the air at an extremely

low transmission power (see col. 3 lines 28-34; i.e. low FM signal is extremely lower than the cellular signal of 800MHz) and at the same time constructs a signal communication network with the low power radio frequency send/receive module in the mobile phone unit (see col. 3, lines 20-34).

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Paterson et al, U.S. Patent Number 5,596,638 discloses a headset for hands-free wireless telephone.

Baranowski et al, U.S. Patent Number 6,658,267 discloses an interoperable AM/FM headset wireless telephone device.

Hawker et al, U.S. Patent Number 6,002,949 discloses a handset with a single transducer for handset and hands-free functionality.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony S Addy whose telephone number is 703-305-8487. The examiner can normally be reached on Mon-Fri 7:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Erika A Gary can be reached on 703-308-0123. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
